

FIT/FOBT Spring Boot Camp Webinar Series!

Session 1: Evidence Base for FIT/FOBT

This webinar qualifies for .5 COPIC point. Physicians should claim only the credit commensurate with the extent of their participation in this activity.

At the conclusion of this webinar, participants will be able to:

- Identify appropriate patients for FIT/FOBT based on screening guidelines
- Discuss about best tests available
- Explain Community Guide Recommendations

Session 2: Implementing FIT/FOBT Programs in your Clinics

This webinar qualifies for .5 COPIC point. Physicians should claim only the credit commensurate with the extent of their participation in this activity.

At the end of this webinar, participants will be able to:

- Explain importance of annual testing and compliance
- Understand need for tracking and monitoring
- Discuss different approaches to FIT/FOBT campaigns

Session 3: Population Management vs. Patient Navigation

This webinar qualifies for .5 COPIC point. Physicians should claim only the credit commensurate with the extent of their participation in this activity.

At the conclusion of this webinar, participants will be able to:

- Explain Systems and EMR Tracking
- Discuss importance of reminder systems
- Identify patients in need of devoted patient navigation services
- Define best practices and approaches for high turnover/transient populations

Session 4: Managing a positive FIT/FOBT

This webinar qualifies for .5 COPIC point. Physicians should claim only the credit commensurate with the extent of their participation in this activity.

At the conclusion of this webinar, participants will be able to:

- Identify practical ways to combat the issue
- Explain benefit of creating a registry of patients with positive FIT/FOBT and need for robust follow-up plans
- Explain benefit of directly notifying endoscopists of patients with positive FIT/FOBT
- Define appropriate interval between positive FIT/FOBT and diagnostic colonoscopy
- Discuss ways to convince patients to make it a priority
